

## **EP-TeQ in Kaunas Lithuania want to thank you for a good startup.**

We are pleased to inform that EP-TeQ has been expanding. One year ago, we opened a branch in Kaunas, Lithuania. This we have done to get closer to our customers and to be a part of the growing Industry in the Baltic Region.

Raimedas Sodaitis is appointed as Technology Specialist in Lithuania. As responsible Technology Specialist he provides consultancy and support of EP-TeQ's product portfolio in the Baltics.

Raimedas has more than 10 years of experience in international electronic manufacturing companies in the test and quality assurance field. He has a bachelor in electronics and a significant experience in test development projects, starting from strategy planning and finishing with integration and in-line automation.

EP-TeQ A/S are now operating in the Nordic, the Baltics, and the Benelux countries. We have an outstanding know-how in servicing primary the Industry, adding value to our tools and machines from world leading suppliers within design, manufacturing and quality assurance.

We assist in implementing new technologies and tools for new challenges, no matter whether it is for design, verification, production, quality assurance or test.

A unique know how, many years of experience and a wide range of products from the leading suppliers within the Industry, makes EP-TeQ capable to analyze the customers' requirements, needs and wishes for an optimum match/investment. For further information about our products we kindly ask you to have a look at [www.ep-teq.com](http://www.ep-teq.com)

Our slogan **"GOOD BUSINESS FOR EVERYONE"** is based on a strong set of values, which is a common denominator for the way we work, think and act. - It ensures value in the daily work, also in relation to our customers.
