

We are pleased to announce that EP-TeQ has signed a contract with Scheugenpflug AG for the sales and distribution of their dispensing and potting products in the Nordic and Baltic area.

Scheugenpflug is a leading provider of precision-engineered adhesive bonding, dispensing and potting solutions worldwide with exceptional automation expertise. Their product and technology portfolio ranges from powerful material preparation and feeding systems to advanced systems for atmospheric and vacuum potting, to modular inline and automated solutions tailored specifically to customer needs. Scheugenpflug dispensing systems are used in the electronics and automotive industries as well as in the telecommunication, medical and chemical industries.

'With EP-TeQ, we found a new, competent partner in Northern Europe,' explains Adam Cerek, Sales Representative at Scheugenpflug. 'The company maintains a top network and has extensive experience in the electrical and electronics industry. This cooperation is an important step for us in order to further develop our market position in Europe.'

'We are very pleased to be chosen as sales partner of Scheugenpflug', says Lars Kongsted-Jensen, Director of EP-TeQ. "Their adhesive bonding, dispensing and potting solutions offer first-class results and top performance to several customers in our area already. They are a perfect match to our already extensive product portfolio.'

More about Scheugenpflug

Founded in 1990, Scheugenpflug AG has over 25 years of process and industry expertise. The company is headquartered in Neustadt an der Donau, Germany, and maintains currently four additional locations in the U.S., China and Mexico among others, employing more than 450 people worldwide.
